Introduction to the Dharljas

So what is a Dharlja, you ask? Good question, a Dharlja is an ascended being living on the earth. Dharlja is a specific term, beings who have ascended previously but are in spirit may or may not have been Dharljas. There are two ways a Soul may ascend, one is that upon the completion of a life when the soul integrates with the Higher Self, the Higher Self feels balanced and makes the choice to stop incarnating, the other is to go through the ascension process on the planet and stand forth in divine expression, becoming a Dharlja. There are two types of Souls on the planet Universal Souls and Planetary Souls. Universal Souls are souls created by higher selves that are from one of the three universal orders (Melchizeldek, Enoch & Michael) Planetary Souls are from the Order of Planetary Beings (Angels). When a Universal Soul ascends they are known as a Ascended Master, when a Planetary Soul ascends they are known as an Archangel. If either ascends while on the planet they are referred to as a Dharlja. A Dharlja who chooses to disperse the atoms of his or her body and return to spirit is called an Avatar and may come and go from the planet at will. This true meaning of this Avatar term was corrupted over time and very few of those referred to as Avatars in the East are true Avatars. A Higher Self who feels complete may also seek out a female Dharlja to give birth to them and become a Dharlja themselves through birth. There are not many opportunities to become a Dharlja in this way however since there are only close to 200 Dharljas currently on the planet, the oldest of whom is over 2000 years old. When a child is carried in the womb of a female Dharlja their body and brain/mind are formed in full divine expression. They start their [Kundalini energy flow](#) by the age of one year and are able to accomplish many things such as direct manifestation of food before the age of two.

It is hard for many people to wrap their head around what exactly it means to be ascended on the earth. One example of many of the things the Dharljas can accomplish is books 1 - 3 of *The Life & Teaching of the Masters of The Far East* by Baird T. Spalding. Spalding shares in these books many experiences he and a group of others had upon meeting some of the Dharljas deep in the Himalaya in the late 1800s. Dharljas have perpetual youth, they cannot die, if they choose to leave the planet they simply disperse the atoms of their body, but retain the pattern of that body in case they desire to gather atoms back together and return as an Avatar. The things that the Dharljas can do are great, however they would not want our focus on them to be only on what they can do or accomplish because it is the fact that they have fully reconnected with God/ Creator that is the important aspect of who they are. The things they can do are the side effects, so to speak of being in this full expression of divinity that is the true nature of us all. Those of us in mortal expression have forgotten our true nature and this has corrupted the way our bodies and minds work. We were never intended to toil and struggle and experience pain on this planet.

A Dharlja has a perfect sphere of energy around his or her body with many energy flows active therein that are inactive or dormant in a mortal, but may be opened as the individual lifts their vibration, shedding the beliefs that they are less than divine. With this sphere a Dharlja may disperse the atoms of his or her body, they will remain within the sphere, then with intention of thought within the consciousness the Dharlja directs this sphere to a different location and reintegrates the atoms thus appearing in the new location. No need of planes trains and automobiles, not to mention the fact that a trip across the planet only takes a few moments. There are Dharljas that taught to various cultures long ago. Anthropologists ponder the reasons why certain beings described by simple cultures as Gods appear simultaneously in cultures across the planet from one another. They were simply traveling Dharljas, teaching and sharing. Most of the cultures of the time were not ready to understand that these Dharljas were simply humans expressing as the Creator intended and that they also were capable of attaining this state of expression.

The Dharljas interacted with various mortals until the late 1800s when they foresaw the changes that would occur that would cause the population to explode on the planet at the same time as technology causing the mass of people to be fearful of everything the Dharljas represent. It was decided that they would lay low, so to speak and wait until the energies of the Fifth World start and the vibration of enough of the people started to raise to a high enough level to receive them. It was known to them that the earth was nearing a time of momentous change within herself that is her natural pattern. This change has a huge effect on the humans and animals on

the planet and also significantly reduces the population. They felt shortly before these physical changes would be the appropriate time to come out and show those who were ready what the divine life looks like. It is hoped that enough people will ascend in this process that after the physical changes there will be many Dharlja women prepared to give birth to children who would then be Dharljas from birth and that this new expression on the planet in the Fifth World will be the beginning of returning to all humans on the planet being in divine expression. We are nearing this time now.

The Dharljas have lived in a protected place where the energy grid do not allow anyone one with a vibration lower than them to enter and it is hidden from view to those of a lower vibration as well. I call this place Eden although it is known by many names. Until 2000 they remained in one special place in the Himalaya near the borders of Nepal and Tibet, but in 2000 they turned the energy of this space over to a group of Avatars who would hold the space for other Avatars to come and go, and they created two new Eden energy places to live in the Rocky Mountains of North America. Prior to their move a group of mortal grid workers working hand in hand with Ascended Masters and Archangels in spirit, were directed by spirit to build a whole new grid system through the Rockies from Canada down into Arizona and New Mexico that was of a much higher vibration. The flathead valley in Montana had a weak vortex grid in place before this and the new grid was layered upon it adding new powerful vortexes. The new grid uplifted the vibration of the old vortex system and these two grids fused together are what is now the Flathead Vortex System. There was similar work in Colorado although the system in Colorado is widely separated by mountain ranges so there is no area there that is concentrated in energy as the Flathead Valley. Work was done in Sedona as well to change the way in which that system worked making it more difficult for those with negative intention to use those vortexes for their negative agenda. This Rocky Mountain region of North America is where the Dharljas will begin their work and make their home.

The lifestyle of the Dharljas is simple, as they do not need to work to supply the basic needs of life such as food clothing and shelter. They do not agree with our current economic system even for mortals and refer to this as economic slavery. They are well aware of the fact that there is a small group of elite being controlling the mortals on the planet for their own purposes which are based in money, greed, control and darkness. This group creates on purpose the wars and injustice on the planet. The lifestyle of the Dharljas being shared openly is the greatest threat to these people. You cannot control people who are totally empowered in divine expression of God. If a Dharlja desires food they may simply decide what they want and manifest it directly from the universe. They may grow food as well if they find gardening enjoyable, however even their gardening is unlimited as they can create microenvironments, for example growing citrus in the middle of winter in the far north. They can have ever bearing fruit trees of varieties that normally fruit once a year. They can give the plant or tree the energy and environment it needs to accomplish this without it's exhaustion, thus a single apple tree may simultaneously have blossoms and apples of every stage of development.

Obviously as stated before travel is not an issue clothing can be manifest. A room can be lighted or heated using universal laws of which we mortals are unaware. The light or heat appears to have no source. They have no limits of gravity or things of this nature, the physical world is easily changed by them. An example of this ability is the ability to walk on water. What appears to be flowing can be solid for them, and what appears to be solid could be walked through. They have no issues of health or aging their bodies remain in a perfect state of balance, in fact they are not dependant on food for what their body need in nutrients the body can manufacture what it needs. Their time is spent in pursuit of joy and service. They may teach or share, they may spend time in quiet meditation assisting those of us in the mortal to raise our vibration and find the ascension path. Many do work to thwart the activities of the elite group controlling the mortals although there are some things they cannot do in relation to this because they cannot interfere with our group consciousness choices and we allow ourselves to participate in this slavery. They spend a tremendous amount of time in the arts, music, painting, poetry, you name it. They spend time together in ceremony for the earth and the animals as well as to give energy to those of us aspiring to reach our own divine expression. Many species thought to be extinct are alive in well in Eden awaiting the changes on the earth to be reestablished. To be a Dharlja is to be in true dominion on the earth, the Creator made human the protectors of the earth and all her non human inhabitants, in mortal form we express this as domination over the planet. The Dharljas will show us true dominion and that is

belongs to all of us. It is easy to see why this is the greatest threat to the power elite. It is also however our true nature and the destiny of all humans on earth to attain this expression.

Bhodsvatan Line

Lineage of Dharljas born ascended of Deliahs Johanna and Pedro. Dalihan being the exception because he was not born into the divine state, but stood forth at the age of 10, he was not conceived or carried in the divine state as both Deliahs Johanna and Pedro stood forth August 13, 1444, about a year after Dalihan was born. Taking that into consideration he is every bit a Bhodsvatan to all the family and he and his children carry the name. Bhodsvatan was the name given to this lineage by the eldest Dharlja at the time Deliahs Johanna and Pedro stood forth.

Canberdhanak Line

Lineage of Dharljas born ascended of Teetok Alina and Akwatna Camen. Canberdhanak was the name given to this lineage by the eldest Dharlja at the time Teetok Alina married Akwatna Camen. Akwatna is the very last of the Camen Line of Dharljas that date back to 1088BC. She had not planned to marry or have children, so when Teetok stood forth and they chose to marry and raise a family, it was decided that the future generations would carry a new Dharlja family name.

Non Family Member Dharljas

1. (M) **Dharlja Atara Compotiain**– June 2, 348 BC - He turned 2,348 in the year 2000. He says that our calendar is not accurate by 37 years and if accurate his birth year would be 311 BC. Current Elder of the Dharljas. The last of the Compotiain Line. The Compotiain Line dates back to 5024 BC. His Siblings had many children and the last great great great great grandchild of his youngest brother became an Avatar in 1996. Served Jesus by playing the role of Judas. In Spirit he is the current Father Enoch.
2. (F) **Dharlja Pusedaque Kimpon** – January 20, 2 BC Based on our calendar. Turned 2002 in 2000. Stood Forth - September 29, 39 AD. Worked closely with Jesus before his public teachings began and credits him for giving her the motivation to complete her ascension path as he shared with her the path he would take to the cross in service to humanity. Egyptian and Libyan Ancestry. Never married but had one Son with a mortal man that has since become an Avatar. She intends to stay on the planet through the completion of the 1000 years of peace and harmony. She will take the role of Elder of the Dharljas when Atara returns to spirit as an Avatar at the completion of the earth shift.
3. (M) **Dharlja Peter** – March 4, 3 AD - Stood Forth February 8, 49AD Disciple of Jesus thought to be dead, eager to share the truth about the disciples and their time with Jesus after the Master Incarnates open up the energy for the teachings. Keeper of all the original books written including the books of Mother Mary and Mary Magdalene, and books written by those who wanted to stop the original Christian ascension movement, which was the intention of the original “church”.
4. (F) **Dharlja Batrine Calista** – February 1, 47 AD
5. (M) **Dharlja Koluul Calista** – November 20, 49 AD - These two are the last of the Calista Line they are not siblings but trace themselves back to the same great grand parents. The Calista Line dates back to 4532 BC
6. (F) **Dharlja Domeniqe Sojourn** – November 13, 112 AD – Stood Forth January 10, 182 AD Had a husband and 3 children and 3 grandchildren that have all since become Avatars (the Sojourn Line). Very much enjoys being on the planet in divine expression and is considering marrying again and having another family. Ancestry Spanish – Italy areas
7. (F) **Dharlja Sotash Camiledojat** – September 4, 231 AD - Stood Forth June 21, 301 AD Ancestry Northern India – Nepal – Tibet.
8. (F) **Dharlja Semot** – August 15, 252 AD – Stood Forth April 29, 299 AD Ancestry Hopi
9. (M) **Dharlja Ramone Deletto** – June 23, 347 AD – Last of the Deletto Line that dates back to 2436 BC. Specialist in working with sound in healing and vibratory adjustment. Got the Tibetan Buddhists involved in making singing bells and bowls.
10. (F) **Dharlja Plalesemo** – October 1, 487 AD – Stood Forth July 18, 521 AD – Ancestry Mongolia – Korea
11. (M) **Dharlja Jahoot Reema** – April 13, 500 AD– Stood Forth November 10, 597 AD– Ancestry Sumatra – Know to the Dharljas as “The Story Teller” expect to hear a lot from him about earth history. He is the historian of the group and expert in world language.
12. (F) **Dharlja Lemalli** – December 21, 624 AD – Stood Forth February 12, 647 – Ancestry South Pacific and New Zealand - Maori

Master Incarnates all born June 1, 1984

13. (M) **Derrick** - Ireland
14. (F) **Suntaseela** – Africa - Kenya
15. (F) **Pamela** - Australia
16. (M) **Kalise Serkhano** – Former Soviet Union – Near the Caspian Sea
